REFERRING to the QUEEN'S LAST BALL, "Truth" says:—

The supper is always most admirable at the Palace, and the Wines unexceptionable notably the DRY CHAMPAGNE. In this respect the Queen sets an example which might very well be followed at other fashionable entertainments, at most of which the guests are ruthlessly poisoned with the cheapest abominations that can be bought.

The above refers to WACHTER'S ROYAL CHARTER.

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, MAY 25.

THE business record of the week exhibits a considerable volume of export trade, but as a general rule it consists of transactions forced in character and unprofitable in result. Cotton is still arriving in unprecedentedly large quantities, but home prices, under the weight of previous heavy shipments, mostly range slightly under our first cost. In Wheat and Seeds, however, the margin against shippers is much more extreme, the collapse in freights by steamer inducing people to buy heavily at almost any cost to cover their charter engagements. In the case of Wheat, moreover, supplies are coming to hand very slowly, holders up-country in fear apparently of an unfavourable monsoon having made up their minds to recruit their local stocks before parting with anything for export. The reduction of the through rate of railway freight from Delhi by the Rajpootana and B. B. and C. I. lines to As. 13-6 per maund, as announced to-day, may possibly induce some stuff to come forward; but until something of the character of the rains can be seen, we fear we shall lack the basis of an active trade, and low as freights are now at 28s. 9d. for Liverpool, it is quite possible we may yet see a further decline. Imports are dull all round, and are not likely be improve materially until after the setting in of the rains. Money is becoming cheaper daily, and Stocks and Shares are steadily hardening in value in consequence.

MONEY.—Although the last statement of the Bank of Bombay was extremely favourable, no change has been made this week in the Bank's official rates of interest, which still stand at 7 per cent. on loans secured by Government Paper and 8 per cent. on Merchandise. In the open market, however, accommodation is freely obtainable at 4½ per cent. per annum, and as the Bank of Bengal in Calcutta have to-day reduced their minimum rate of discount to 6 per cent., we shall probably see a lower figure announced by our local instituton at the weekly board meeting next Wednesday. In the meantime the whole aspect of the market points to a very low level of money during the rains.

EXCHANGE.—Sterling ruled very steady during the early part of the week, and until two days ago no actual change could be quoted on last mail's rates. The easier appearance of money both here and at home, however, imparted a rather easier tendency, and some of the Banks came out as buyers for June delivery at a decline of 1-32d. To-day, notwithstanding Council drafts in London yesterday having brought 1s. 8 1-16d., the reduction has been extended to ready bills, and we close weak at the following figures :—

Bank Bills on demand	1s. 8⅛d.	per Rupee
Do. telegraphic	1s. 8 1-16d.	"
Do. 4 months' sight	1s. 8 11-32d.	"
Credits 3 " "	1s. 8 11-32d.	"
France 3 " "	2·14½	"

As regards the future, opinions here generally are in favour of a continued decline, as it is daily becoming more evident that after the close of the Cotton season a fortnight or so hence our export trade will shrink into very small compass. The one strong feature, if such it can be called, is the position of Government with regard to Council drafts. It is evident that they will make a hard struggle to prevent a decline below 1s. 8d., but should the condition of our export trade not improve, it may be that too much firmness now may be productive of proportionate weakness later on.

GOVERNMENT SECURITIES.—With money getting easier every day, there has been a growing demand for paper during the week, and rates up to this morning had advanced about a half per cent., Fours touching Rs. 102 3-16 and Fours-and-a-half Rs. 109. The political telegrams to-day, however, have been somewhat unsettling, and prices have receded to Rs. 102 and Rs. 108½, respectively. At these figures there are in the meantime no sellers, and if nothing takes place in Europe after all to disturb things, a recovery will not be long in setting in, as both here and in London the state of the Money market is all in favour of higher prices.

SHARES.—The market has been closed for the past two days, yesterday for the Queen's Birthday, to day for a Parsi holiday, but during the previous part of the week shares generally were in good demand at advancing values. In *Banks* the enquiry ran on Bank of Bombays which are Rs. 10 higher, closing at Rs. 801½. In *Land* shares, Colabas have advanced Rs. 30, Port Cannings Rs. 7½ on the week. *Press* Companies are strong, the large Cotton crop having afforded very full employment to all establishments both here and up-country. Fort Press and Prince of Wales have risen Rs. 75, Mofussils Rs. 7½, New Indian Rs. 5, and other Companies are all firmly held. *Spinning and Weaving Mill* shares are a trifle quieter at the close, but previously a very decided improvement took place consequent on better advices from China regarding the Yarn markets, and a considerable speculative tendency being also apparent, quotations were advanced materially. Since last mail-day we quote a rise of Rs. 60 in Sholapore, Rs. 55 in Dhurrumsey, Rs. 45 in Alliance and Bombay United, Rs. 40 in Hindustan, Jewraz Balloo, National, Morarjee Gocouldas, and New Great Eastern, Rs. 35 in Western India, Rs. 25 in Orientals, and Rs. 10 to Rs. 15 in other Companies. Amongst *Miscellaneous* Companies, Bombay-Burmah Trading have advanced Rs. 20 and Bombay Ice Rs. 12. *Gold Mining* Companies are all very depressed, with practically no buyers at almost any price, and a very widespread opinion prevails that the bulk of the money invested in these enterprises will prove a total loss. As usual, the promoters have done well, but the subscribing public will improve their knowledge of the mineral resources of the country at the expense of their pockets.

PIECE-GOODS.—Although the home advices are very steady in tone and shipments from what we hear through private sources by no means heavy, we are unable to report any improvement in the position of affairs here. From up-country the demand is still languid, and dealers on the spot continue to press sales of their stocks at in most cases a reduction of about an anna per piece from previous values, without, however, inducing any important accession of business, the clearances during the week being only estimated at about 1,200 packages of all kinds. The enquiry from first hands is naturally limited in proportion, and we question very much whether any activity will be apparent until it can be seen with some degree of certainty how the monsoon promises. At present for some reason or another the natives appear to have become impressed with the idea that the rains this season will prove unfavourable, and until this is settled, the tendency will be to restrict business.

In *Local Goods* the sales this week have been about 800 packages at from As. 6½ to As. 7½ per lb., according to quality.

TWIST.—All things considered, there has been a moderately fair demand for Yarns during the week, and prices are firm but unchanged for English Spinnings. *Local* makes have met a fair enquiry, resulting in about 3,000 bales having changed hands at As. 6½ to As. 6 13-16 for 20s, an improvement of about ⅛ anna per lb. from the lowest point.

METALS.—*Copper* has been firm throughout the week, owing to a further rise in prices at home, and we raise our quotations Re. 1 to Rs. 1½ per cwt. *Yellow Metal* is in request at an advance of As. 8 per cwt., but neither in the case of this nor Copper, are values here on a parity with home cost. *Iron* is quiet but steady at about previous quotations, stocks being still large.

COALS show no important change during the week. The demand for early arrivals is slack, but at current rates a fair enquiry exists for after monsoon delivery of which, however there are no sellers. Stocks on the bunder still press on the market, and until these are finally outted, we can scarcely look for any great activity, meantime existing values are very moderate and not likely to go lower, unless homeward freights undergo very material improvement. We quote Davison's West Hartley Rs. 14½, Cardiff Rs. 15 to Rs. 15½ per ton alongside.

COTTON.—The tenor of the telegrams from Liverpool this week has varied between quiet and steady, but a very fair spot business has apparently been passing in Surats, and prices have scarcely moved either way. Here notwithstanding enormous arrivals, the demand to cover shipment before the monsoon has been so active that prices for really good Cotton have advanced Re. 1 to Rs. 2 per candy, and if anything at the moment seem rather in favor of a further rise.

Broach is now practically at an end, the supplies here being most inferior in quality and very limited in quantity. *Omras* are still coming forward, not in large quantities, it is true, but to a fair extent when the time of year is considered. Nearly all the European agencies are closed up-country for the season, but there are still fair supplies in the leading Berar markets which are all being bought up by native dealers at very extravagant prices, in the belief apparently of a material rise taking place after the setting in of the rains. *Dholleras* are in large supply, but the quality is rapidly falling off. "Fine" is quite unobtainable, and even anything over "Good" is getting into rather limited compass. The additional railway facilities in Kattywar have brought in this description at a pace never before experienced, but advices from up-country go to show that there will be very little left in the districts to come forward after the monsoon.

The *Receipts* of Cotton show the following comparisons with the two previous years :—

	1882.	1881.	1880.
For the Week	73,316	39,00	55,819
Since 1st September	1,506,815	922,538	960,557
Since 1st January	1,256,036	777,877	842,963

The *Clearances for Sea* since 1st January have been 1,067,435 bales as against 583,589 bales for the same period last year, and to all appearance the total for the season ending 30th June will be between 1,250,000 and 1,300,000 bales. As previously remarked these enormous figures will doubtless leave us with a very small surplus of Cotton in the country, but there can be no question that the Crop all round has been the largest ever produced.

The following are to-day's quotations for full-pressed Cotton with the equivalents in sterling, cost, and freight to Liverpool, via Canal, without commission :—

	Per Candy.	C. & F. Per lb.
Fine Omras (Nominal)	Rs. 205	5 5/16d.
Good do.	" 195	5 1/16d.
F.G.F. do.	" 188	4 29/32d.

Fine Dhollera (Nominal)	" 208	5 13/32d.

F.G.F. do.	" 185	4 27/32d.

Good Ginned Dharwar	" 201	5 9 32d.
Good Ginned Broach (Nominal)	" 225	5 13/16d.
Good Westerns	" 183	4 25/32d.
F.G.F. do.	" 178	4 21 32d.

WHEAT.—Notwithstanding dull advices from home a very active demand prevails here, partly to cover old contracts and partly to meet freight engagements, and prices are generally Re. 1 to Rs. 2 per candy higher on the week, quotations being :—No. 1 Soft White, Rs. 33 to Rs. 34; No. 2, Rs. 32 to Rs. 33; Soft Red, Rs. 31; Hard Red, Rs. 26 to Rs. 27 per candy. Supplies have been a trifle more liberal from the Jubbulpore district, but from Delhi, where there has been a large crop, there is nothing whatever coming, the natives, under apprehension of a bad monsoon, having gone in for replenishing the local stocks in the pit, of which the country had been quite denuded. We have yet, however, to see the effect of the reduction in the railway freight from Delhi announced to-day.

LINSEED is arriving in considerable quantities, but is brought up rapidly at daily advancing rates, the quotation now being Rs. 5-10 per cwt. Of *Rapeseed* arrivals are only limited, and sellers are very firm at Rs. 6-1 per cwt. for Guzerat.

THE Governor arrived at Gunnesh Khind from Mahableshwar on Wednesday, and comes to Bombay to-day to see his daughter and sister off by the mail-steamer.

WE received the annexed communication from the Bombay Chamber of Commerce yesterday :—"The following telegram has just been received from Ahmedabad by the Chamber of Commerce from Mr. Wood, the Agent of the B. B. and C. I. Railway Company: 'The through rates for grain, and common seeds that class with grain, are arranged for three months certain, from 1st June, to following, viz., Delhi to Bombay 13 annas and 6 pies per maund, Agra to Bombay 12 annas 6 pies per maund.'"

BOMBAY city continues entirely free from cholera. There was not a single death from cholera registered during the week ended on the 23rd inst. In the corresponding week of last year there were 30 cholera deaths, and the average number for the corresponding weeks of the last five years has been 24. So the city is exceptionally fortunate this year. Some other parts of the Presidency are not so happily situated, however. Cholera seems to be getting as destructive a hold of the Satara and Belgaum districts as it had last year of Surat. In the Satara collectorate there were 189 deaths and 416 cases reported during the week ended on the 20th inst., and in the same period there were 202 deaths in the Belgaum district. Slight cholera continues also in Poona (4 deaths), Sholapur (1 death), and Rajkot.

MR. E. B. CARROLL has been appointed by Government a member of the Town Council in place of Col. Hancock; and Col. White, R.E., takes Col Hancock's seat in the Corporation.

THE Burmese Ambassador is reported to have presented a series of proposals which he has expressed his desire should be embodied in a treaty between India and Burmah. These proposals, it is stated, are now being confidentially considered

THE following gentlemen have been appointed by notification in the *Bombay Government Gazette* to be Honorary Assistant Surgeons to the Gokuldas Tejpal Hospital, viz :—Mr. Roland Blaney, M. A, M. B., C. M.; Mr. H. D. Pesikaka, L. F. P. and S. (Glasgow) and L.R.C.P. (Edinburgh); and Mr. H. J. Khambatta, L.R.C.P. and L.M. (Edinburgh).

THE thermometer at Akola this month, a correspondent informs us, has registered as high as 109° in the shade.

THE Municipality of Amraoti has obtained the sanction of the Resident, Hyderabad, to impose a "tax on incomes" from April next of one rupee per annum on incomes of Rs. 100 to Rs. 150, and two rupees "on persons whose incomes are not less than Rs. 150, and who pay no Town Fund."

COLONEL LINDSAY, Chief Engineer, Southern Mahratta Railway Company, leaves for England shortly on two years' furlough. Mr. F. L. Dibble, C.E., will act for him.

THE latest news in connection with the stranding of the s. s. Socotra is that several of the Socotra's officers and engineers, accompanied by sixty-one of her crew, have reached Moulmein. The steamer is reported badly ashore, the commander remaining by her. Assistance, however, is being sent to the stranded vessel from Rangoon, and if the weather continues fair, hopes are entertained of saving her.

MR. H. B. JONES-BATEMAN, Assistant Commissioner of Fyzabad, N. W. P., was seriously injured by a tigress while out shooting in the Bahraich district a few days ago, and is at present in a critical state.

SIR RICHARD GARTH goes on three months' leave from June, and Mr. Justice Cunningham will act as Chief Justice of Calcutta.

MR D. C. JOHNSTONE, one of the Punjab Civil Servants about whose transfer to Bombay there has been so much discussion, is appointed Assistant Collector at Belgaum: and another of the three aggrieved gentlemen, Mr. W. W. Drew, becomes Assistant Collector at Tanna.

THE Maharajah of Mysore, with the sanction of the Government of India, is advertising for a debenture loan of twenty lakhs of rupees on the security of the general revenues of the Mysore province. The amount of the loan is to be expended entirely on the construction of an important line of railway from Bangalore to Tiptoor, a distance of about 85 miles.

THE Ceylon people are insisting on the necessity of retrenchment in public expenditure. The *Ceylon Times* says :—"The cry is going up from all parts of the country that there must be more economy in official expenditure, in view of the falling off in the revenue consequent on the depression from which our staple product is suffering."

THE cash balance in the treasuries of the Hyderabad Administration is less this year than in the two preceding ones. The figures were—on the 31st March, 1880, Rs. 91,16,736; 1881, Rs. 99,13,768; and 1882, Rs. 61,32,807.

FROM the middle of next month Colombo will be substituted for Galle as the place of call for P. and O. steamers in Ceylon.

THE amount of Indian salt revenue for the financial year 1881-82 was Rs. 6,99,62,000, as compared with Rs. 6,73,51,000 in the previous year.

THE *Madras Mail* says :—"The 'magnificent experiment' in local self-government to which *The Times* gives such an absurd puff, has been in practice in Madras for near about fifteen years. Anybody comparing the Resolution of the Government of India, which we published yesterday, with Sir Alexander Arbuthnot's Local Fund and Municipal Bills introduced in Madras in 1867, will be struck with their family likeness. They have been a long time waking-up to the necessity of local self-government in Upper India."

THE examinations of witnesses by the Punjab Committee of the Educational Commission have been fixed to take place at Simla on and after the 10th of July. The Commission is also expected to visit Lahore and other places in the Province to take the evidence of witnesses. The Rev. Dr. Forman and the Rev. F. Baring will be examined as representatives of the missionary bodies in the Punjab.

IT is a pity, the *Indian Daily News* remarks, that the services of such a man as Sir Andrew Clarke were not made available for India. "We believe that Lord Ripon, who is well acquainted with Sir Andrew, and who appreciates his capacity and his power for work, was anxious to have him return to India; but in this matter the India Office, for some reason or other, thought fit not to avail itself of the great experience and talents of the late Minister for Public Works in India. His promotion at home is a fair acknowledgment of his merits, and is undoubtedly the best appointment the Ministry could have made. We wonder if, now that Sir Andrew Clarke has been provided for, the question of a Public Works Minister for India will be again brought on the *tapis*. We should imagine that it will be; but we do hope Lord Ripon will make his voice heard in the selection of the officer to be chosen. As to the necessity for such a strengthening of the Supreme Council of India, there cannot, we think, be two opinions. We regard such an appointment as necessary to make the work of the Government proceed smoothly and efficiently, and necessary in the financial interests of the country, quite as much as to prevent the Viceroy from being overworked."

THOUGH no publicity has been given in any way as yet to the negotiations going on at Simla with the Burmese Ambassador, the *Pioneer* hears that these are hanging fire a little. The Burmese are said to be very obstinate. Our contemporary remarks :—"From the bystander's point of view, the Government in that case has a very simple course before it,—it can wish the Burmese Embassy goodbye. Obstinacy seems only possible in the case of a person or Power from whom some other person or Power wishes to obtain a concession. That can hardly be the case as regards the Burmese. They go to Simla uninvited in the capacity of people who have certain requests to make. The Government of India never asked them to come, and showed no anxiety to renew those relations with Mandalay which were broken off at the period of the disturbances which followed the present King's accession. Negotiations under those conditions ought only to follow definite lines. The applicants should state their wishes and define the new arrangements which they desire to make. The other party to the transaction should then say whether it is willing to accept those arrangements or not, and, if willing, on what terms. If the terms do not suit the applicants, *c'est à prendre ou à laisser*: there is no room for obstinacy, it seems to us, on the part of the Burmese, though there might be for importunity."

THE Indian imports of raw silk are steadily increasing. They have risen from 1,461,069 lbs. in 1879 to 2,511,802 in 1881; and the chief countries whence the supply is drawn are China and Japan. Bombay is the chief importer. It keeps two silk mills in active work, and last year imported over two million pounds, the remainder of nearly 300,000 lbs. went to Burmah, where there is a considerable home silk weaving. A comparison of the imports of raw silk and the exports of native raw silk shows that, while in 1877 they nearly balanced each other, in 1881 the export of Indian raw silk had fallen to about one-fifth of the quantity imported. Bombay, which has to depend on raw imported silk, manufactures it in large quantities and finds markets both in Burmah and the Upper Provinces. Bengal makes no attempt at manufacturing the raw material beyond a few hand-made goods.

So far from the cultivation of opium decreasing in China, it is stated that the poppy is now being grown on the Kong-poh at Ningpo, close under the windows of foreigners, and its cultivation is spreading in the district round Shanghai.

THE Skobeleff incident has resulted in the issue of the following general order to the Russian army :—"His Majesty the Emperor has directed that the army be informed that it is forbidden to its members to make public discourses of a political tenour, the act being completely opposed to the spirit of military discipline. The attention of the army is also called to the fact that, according to the general laws of the Empire, persons in the service of the State are forbidden to publish, without the previous sanction of their superiors, works having connexion with the external and internal affairs of Russia."

KRUPP, the German Iron King, has added 800 recruits to his industrial army. It numbers now 40,000. Krupp is probably the largest single employer of labour in the world.

DR. SCHLIEMANN'S latest work in the Troad is the excavation of the tombs of Achilles and Patroclus.

A GENTLEMAN sends *Truth* the following extract from the "Diary of Abraham de la Pryme," the Yorkshire antiquary, published by the Surtees Society, 1570-1697, Sept. 16, and suggests that some Peer should move it in the House of Lords :—"The House of Commons are commonly a company of irreligious wretches, who care not what they do, nor what becomes of the Church and religious things, if they can but get their hawkes and hounds, and the sacred possessions of the Church. It is plainly visible that the nation would be happier if there *were no House of Commons*, but *only a House of Lords*, who yet nevertheless should not have so much power as they have, but should be only the eyes of the country and of the Council of the King."

THE electric light has already been adopted at Alnwick Castle, and at Trentham, the Duke of Portland intends to illuminate Welbeck with it, and the Prince of Wales contemplates introducing it at Marlborough House. It is good news for racing men that Newmarket is to be illuminated with the light. It has long been the worst lighted town in the country; indeed, during a meeting, the streets are positively as dangerous as though it were the old Alsatia.

ON the subject of Russian diplomatic changes, a telegram to the *St. James's Gazette* from St. Petersburg, dated May 5, states :—At the instance of Baron de Giers, the Russian Minister of Foreign Affairs, several changes in the representation of Russia at the European Courts will soon be made. It is probable that Prince Orloff will leave Paris and go to London, while it is stated that Baron de Mohrenheim, the Minister at the Court of Copenhagen, will retire from active service on account of ill-health, and be replaced by a Finland nobleman high in imperial favour. Baron de Mohrenheim was thirty years ago regarded as one of the most eminent of the Russian Diplomatic Corps; but he had the misfortune to make a personal enemy of Prince Gortschakoff by having in private ridiculed the celebrated expression, "La Russie ne bouge pas, elle se recueille," in the famous circular after the Crimean war, and was from that time kept in the background.

GRAIN RATES ON THE R. S. RAILWAY.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I trust you will allow me to make a few remarks on the statements contained in a letter on the above subject published in your issue of the 18th instant.

(1). The writer says that there are about sixty thousand tons of wheat lying ready for despatch. The districts round about Delhi do not produce so much in a whole season, and there are no stocks from last season, as it is well known the stocks which had been accumulating for years in the "khuttees," or underground storehouses, were cleared out in response to the enormous demand from Bombay and Calcutta during August, September, and October last. Besides this, holders will not sell, as there is a widespread belief among the natives that this will be a famine year. From end to end of these provinces the natives are buying and storing up as much as they can lay hands on; and it is with the greatest difficulty that three hundred tons can be covered at present rates. In fact, holders don't care to sell.

(2). Re rates. The rates at present are not greater than the rates to Calcutta, having regard to the difference in mileage. To make such a sweeping reduction as "A Voice from Delhi" requires would be to entirely cut off Delhi wheat from Calcutta, and Government cannot in common justice favour one port more than another. Moreover, to make such a reduction would be to bring two State lines into competition with each other, with no benefit to either. Is it not possible that the owner of the voice has speculated on a reduction in rates, and having sold forward in expectation thereof, finds himself "up a tree?"

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.—Palatableness and the facility with which it is digested are characteristics peculiar to the genuine Oil of Dr. de Jongh's Cod Liver Oil. Dr. Granville, F. R. S., author of "The Spas of Germany," writes: "Dr. de Jongh's Light-Brown Cod Liver Oil does not cause the nausea and indigestion too often consequent on the administration of the Pale Oils. Being, moreover, much more palatable, Dr. Granville's patients have themselves expressed a preference for Dr. de Jongh's Light Brown Cod Liver Oil." Sold only in capsuled Imperial half pints, pints, and quarts, by all chemists, druggists, and store-keepers. Sole Consignees, Ansar, Harford and Co., 77, Strand, London.

APPROACH OF THE MONSOON.

A TELEGRAM from the Meteorological Reporter to the Government of India says that excepting along the Western Himalaya, on the west coast of India, and the south-west peninsula, where the barometer has fallen slightly, the pressure is again rising. The chief rise is at Mount Abu and Neemuch, but is under one-tenth. The pressure is still below the average generally, and especially in Burmah, Assam, and Bengal. It is slightly excessive in Lower Sind, Cutch, and Guzerat. The gradient is unduly high from west to east: therefore the winds are more northerly or north-westerly than usual on the Western Himalayas, Upper and Central India, and on the West Coast, becoming south-west in Guzerat, and easterly in Bengal up to Patna. The temperature is still rising in the north and north-west, except in Upper Punjab, where the north winds blow from the recent snows. Many stations are seven to ten degrees above the average in the Punjab and the Gangetic plain. Rain continues to fall steadily in Burmah, and is moderate at Calicut and Cochin. At Calicut there were above eighteen inches on the 20th. Rain is falling at Gooty, Nellore, Vizagapatam, and Dinagepore.

OUR Berar correspondent writes :—"For the past fortnight there has been an indication of an early monsoon. Strong winds, cloudy sky, and sprinklings of rain are the symptoms. The advent of the monsoon will be very welcome, as water is becoming scarce in several districts. At Amraoti and Akola the heat is intense. Cattle-diseases continue prevalent in all the districts of the province."

A CORRESPONDENT writes from Nagpore, 21st instant :—"We had a few slight showers of rain, which have cooled the atmosphere greatly. The nights are cool and pleasant. The high hot winds during the day, at times, are intolerable."

THE *Ceylon Times* of May 18 states :—"As we write, the weather in Colombo is stormy and indicative of the break of the monsoon. During the last twelve hours the wind has changed from east to south-west, while increasing in violence, and a good deal of rain has fallen, with a sudden lowering of the temperature."

A CYCLONE is expected in the neighbourhood of the Andaman Islands, its direction being westerly. Bad weather prevails at the Sandheads, with a heavy sea running.

THE RECENT FLOODS AT CALICUT.

THE *Madras Times'* Calicut correspondent writes :—Besides the destruction of the Kallai bridge on the road to Beypore, the extraordinarily heavy rains on the 19th instant have occasioned considerable loss of property. Hundreds of poor people were rendered homeless, their houses having been washed away or having tumbled down. In some places the waters rose more than six feet, and the floods have not subsided till to-day, the 21st inst. According to natives, such a heavy fall of rain has not been known during the last thirty years. At a rough guess, I think the rainfall within twenty hours on that day must have been about 24 inches. The correct quantity will, however, be ascertained and reported. I would do so now, but the rain-gauge kept at the Civil Dispensary, which is our local Meteorological Observatory, was allowed to overflow itself. Messrs. Andrew and Co., the Agents of the B. I. S. N. Company, have also suffered much loss. There are some thousands of bags of rice lately landed by them and heaped up on the beach. Although every precaution was taken to protect the bags, yet the weather turned out so boisterous that a large number of the bags were damaged.

HEAVY WEATHER AT SEA.

THE steamer Columbian, 1,404 tons, Captain G. Baldwin, put into Bombay harbour on Wednesday night, the 24th inst. The Columbian left Calcutta on the 6th instant with a general cargo for Jeddah. She experienced very heavy weather on the 18th and 19th inst., after leaving Galle, and shipped water to a certain extent. Five of the crew were washed off the boom while making fast the jib on the night of the 18th, while a heavy gale was blowing, but they were all picked up quite safe. The captain found it necessary to put into Bombay for repairs, the engines being out of order.

The gunpowder caught fire, and the flame communicating with the jar, caused an explosion, which killed the woman and two children who were near.

SCARCITY IN GUZERAT.—Owing to the marriage season in Guzerat, and its consequent big caste feasts, prices of provisions of every description have gone up, and the poor are suffering. The *Jame-Jamshed*, in a long article, draws the attention of the Hon. Dhanjisha Sheriffa to this, and advises them to adopt preventive measures.

ASSAULT AT THE ARTHUR CRAWFORD MARKETS.—Dawood Khan Hussain Khan, a peon attached to the Arthur Crawford Markets, and Sumboo Pandoo, a coolie, Bunia Dowjee, labourer, were yesterday convicted by Mr. P. The barometer indicated 27·99°. The water in the bussaugore is the same as becoming less, and the wells are nearly dry. The total fall of rain at Bolarum to date is 2·93 inches, and at the Hydegabad Residency 2·30 inches. The heat is intense.

QUEEN'S BIRTHDAY CELEBRATIONS AT AHMEDABAD.—A correspondent writes :—"Her Majesty the Queen's birthday was celebrated this morning at this station by a brigade parade. In the absence of General Wood, Colonel Hadow commanded. H. M.'s 23rd and 20th Regiments (2 L. two companies of the 4th King's Own, and the battery of Artillery turned out at 6-30. After firing three rounds of blank ammunition, three cheers were given by the officers and soldiers in honour of Her Majesty."

QUEEN'S BIRTHDAY CELEBRATION BY THE MAHOMEDANS.—The Bombay National Mahomedan Association celebrated the anniversary of the birthday of Her Majesty the Queen, Empress of India, on Wednesday evening, at the house of H. H. Aga Shahbooden Shah, at Love-lane, Byculla. All classes and jamats of the Mahomedan community were represented by leading members of each; and after the business of the meeting was ended, the whole of the members present, with their guests, retired to a banquet given by His Highness.

THE SOUTH MAHRATTA RAILWAYS.—A correspondent writes from Bijapur :—"Now that the railway is to traverse this part of the Mahratta Country, it is contemplated to make this once famous town the head-quarters of the collectorate. The recent heavy showers of rain have greatly retarded the works. Notwithstanding the drawbacks, it is anticipated that the line will be opened for traffic by the end of September next: from which month, it is currently reported, the "Company" will take over the whole line and retain the present staff of officials.

EVADING THE OPIUM LICENCE.—Sowlia Dewba was yesterday convicted by Mr. Dosabhoy Framjee of having in his possession sixty-five tolas of opium without a licence from the Collector of Bombay. Being a reputed thief, he was fined a further sum of Rs. 10, or in default to undergo a further term of one week's rigorous imprisonment.

BOMBAY, POONA, AND CALCUTTA.—The residents of Poona are comparing the state of that city with that of Bombay. It appears that at Poona the sweeping of the streets is not completed till 9 a. m.; whilst at Bombay the work is done before 5 a. m. Let the Poonaites take comfort: although Bombay may be behind Bombay, they are still a dreadful long way ahead of Calcutta. In this pearl of cities the question is not at what hour the streets are swept, but why they are not swept at all. There is here an extensive correspondence which Poona can legitimately glorify itself.—*Indian Daily News.*

ALIMONY.—Ballaram Motecram appeared yesterday before Mr. Dosabhoy Framjee to show cause why he declines to support Wittee, his wife. Mr. Dinshaw D. Davar appeared for the defence, the prosecutrix appearing in person. The defendant denied being legally married to the complainant; she had simply lived with him for a short time. The evidence of the prosecutrix went to show that she had been married to defendant about twelve months ago, and that the marriage ceremony was performed by a Brahmin, who died yesterday (Wednesday). She had been away from Bombay on a visit to her father at Sholapur, and on her return defendant declined to receive her. The case has been adjourned for further hearing until the 8th proximo.

A DARING ROBBERY.—Four notorious characters named Balla Ruckmajee, Gainoo Vittoo, Muloo Mahdoo, and Mirza Hoosein were yesterday charged before Mr. P. Ryan with stealing Rs. 48-4 from Tatia Amroota. It appears that the complainant, a contractor, was paying his labourers in a shop on the east side of the Common Jail. The four prisoners went to the shop, one of them entering it on the pretext of lighting his *biddee*. This man suddenly put the light out, and the other three prisoners rushed in and grabbed at the money, to the amount of about Rs. 414, which was lying loose in a heap on the floor; but whilst making their exit from the premises they were arrested by the police with the amount in question in their possession. The case stands postponed for further hearing to this day (Friday).

Consequent on Colonel Way being appointed Officiating Commandant 4th Infantry, at Jalna, Captain Salmon, from Lingasoogur, has been appointed Second-in-Command of this corps. The sentence in the alleged murder case is unknown at present. The station hospital system has not been introduced into this service yet; but references have been made as to the scale of pay of the Surgeon Major Williamson, M.D., resigned this service for duty in Secunderabad. The Contingent service is not so enticing as it was a decade of years ago.

BIRTHS AND DEATHS IN BOMBAY.—The total number of deaths registered during the week ended Wednesday, 24th May was 288, being 1 more than in the previous week, 90 less than the week ending 24th May, 1881, and 49 less than the mean of the corresponding period in the preceding five years. There were 67 deaths from remittent fever, being 8 less than the previous week, and 34 less than in the same period last year. The deaths from diseases of the respiratory system, diarrhœa, and dysentery were last week 57, 13, and 5 respectively, compared with 78, 35, and 15 last year. There were 22 deaths from measles last week as compared to 20 in the week previous.

A CHARGE OF DEFAMATION.—Josi Chinba Walji, a Hindu, appeared yesterday before Mr. W. Webb and obtained summonses against Hurry Bhaijee and Samjee Veerjee, charging them with defamation. The complainant deposed that the defendants were members of the Lohana caste. The members of the Sar Sut caste, to which he belonged, were considered as the priests of the Lohana caste. On the 7th instant a feast was proposed in celebration of a certain marriage solemnised at the house of one Meghjee Hemraj, a member of the Lohana caste. Invitations were sent round for the occasion, when the two above-named defendants falsely caused it to be proclaimed amongst the members of the two castes that he (the complainant) had been ex-communicated. The complainant also obtained a summons against L

NOTICE.

WASTE LANDS AVAILABLE FOR PLANTERS IN THE TAVOY DISTRICT.

WASTE LANDS, covered at present with forest, bamboos, or grass, are available for plantations of coffee, tea, cinchona, or spices at altitudes varying from 100 feet to 6,800 feet above the sea in the Tavoy district. This region is between the 13th and 14th parallels of north latitude, and the rainfall ranges from 100 to 220 inches a year. The lands are mostly within 30 to 50 miles of the steamer station of Thayetchoung on the Tavoy river. Mail steamers ply between Thayetchoung and Moulmein or Rangoon once a week inwards and outwards.

II.—Grants of land in lots ranging from 100 to 1,200 acres can be had for planting tea, coffee, cinchona, or spices on application to the Deputy Commissioner of Tavoy. Such grants will be made in accordance with the "Burma Land and Revenue Act, 1876," and with the rules sanctioned thereunder by the Governor-General of India in Council. Copies of the Act and rules can be obtained by intending planters on application to the Deputy Commissioner of Tavoy, the Commissioner of Tenasserim at Moulmein, or the Secretariat, Rangoon.

III.—In addition to the concessions and conditions laid down in the Act and rules, the following special concessions will be made to persons taking up land for plantations of coffee, tea, cinchona, or spices, in Tavoy, namely,—

(1) A grantee must bring under cultivation one-third of his grant within 12 years from the date of his obtaining the grant. If, after the expiration of 12 years, any surplus uncultivated land, in excess of two acres of waste for each acre of cultivated land, shall remain on the grant, such surplus waste shall then revert to Government; and the grantee shall have no further claim or right in the surplus which has so reverted.
(2) A grantee will not be liable to pay any land revenue or any price for the land of his grant until the end of the fourth year after he enters on possession, provided that he takes *bond fide* steps to cultivate a reasonable proportion of the grant with coffee, tea, cinchona, or spices. In the event of any grantee desiring a more precise definition of a "reasonable proportion," the Chief Commissioner may decide beforehand in each case what proportion of the grant ought to be thus cultivated each year.
(3) After the end of the tenth year the grantee will be liable to pay land revenue at the rate of Rs. 1-4-0 per acre and cesses at the rate of two annas per acre on one-third of his grant up to the year 1900 A. D.; after the expiration of such year he will be liable to pay for one-eighth of his grant the same revenue rate as is paid for garden lands in the nearest revenue circle where a garden rate obtains.
(4) A grantee will not be called upon to pay anything for timber, bamboos, or grass which he may cut upon his grant, provided he takes *bond fide* steps as aforesaid to cultivate coffee, tea, cinchona, or spices.

IV.—The only payment which a grantee will have to make on receiving his grant will be eight annas an acre for the cost of survey and demarcation. In consideration of such payment the Deputy Commissioner will cause a survey to be made of the grant, will furnish the grantee with a copy of such survey, and will cause boundary marks to be erected at suitable points in the outer boundary of the grant.

V.—The wishes of applicants will be met, as far as possible, in regard to the situation and shape of their grants. But ordinarily—

(*a*) no grant will be given where the Forest Department intend to make a forest reserve;
(*b*) no grant will be given on such a place as will unduly circumscribe the extension or cultivation of the grazing-grounds of any neighbouring village or hamlet;
(*c*) grants facing a road or navigable stream will have to be of a depth double the length facing such road or navigable stream;
(*d*) small strips will be reserved leading to landing places for the benefit of neighbouring villages and grantees.

VI.—The Government is now spending much larger sums than heretofore on roads in the Tavoy district. If planters settle in the district, further funds will be allotted for roads from their neighbourhood to the steamer station at either Tavoy or Thayetchoung.
